**Budget Head- 8**

- a) **Name of the proposal:** Providing Lab equipment to Schools of Paschim Medinipur District
- b) **Item no. of Schedule VII:** (ii) Promoting education
- c) **Objectives:** The development of society is only possible by providing the quality education to the children. Schools are the basis for development of a Child's life. Education will enable the children to change their own situation as well as the situation of their family and the society where they live.
- In modern education system, it is very important to provide practical knowledge to students. Preferably, Science is the study of facts and the way we interact with the world. It helps students to develop the ideas, discover the world around them and ask challenging questions that raised in their minds.
- In this way, we have planned to provide lab equipment for setting up Physics, Chemistry and Biology laboratory in village schools.

- a) **Name of the proposal:** Sponsoring Livelihood Enhancement Project for Leprosy Survivors
- b) **Item no. of Schedule VII:** (ii) Promoting education, including special education and employment enhancing vocational skills especially among children, women, the elderly and the differently abled and livelihood enhancement project.
- c) **Objectives:** Leprosy is a chronic infectious disease caused by a type of bacteria, *Mycobacterium Leprae*. The disease predominantly affects the skin and peripheral nerves. In the absence of proper treatment, the disease may cause progressive and permanent disabilities. It is curable with multidrug therapy (MDP).

It has been observed that after being cured and free from Leprosy their families refuse to take the person back because people still consider the disease as untouchable and infectious. These people often end up homeless, as they are not accepted by society. They used to earn their livelihood through begging only.

For the socio-economic rehabilitation of Leprosy survivors, we are planning to sponsor project aimed at enhancing employment through vocational courses. This programme will be executed in corporation with an NGO "**The Leprosy Mission Trust India**" in Bankura, West Bengal. The NGO will provide admission in ITI / Vocational Training course for all survivors in an Industrial Training Institute recognized by NCVT / SVT. It will be beneficial for the 100 survivors by helping them regain their socio-economic status and lead fulfilling lives.

**(Write-up for CSR Projects for FY 2024-25)**

**Budget Head- 10**

- (a) **Name of the proposal:** Educational Building in Five (05) village schools.
- (b) **Item no. of Schedule VII:** (ii) Promoting education
- (c) **Objectives:** Education is the most important part of a person's life where they get an opportunity to learn and experience new things. This helps the person shaping the personality, building confidence and prepares the one for future.
- In fact, the development of society is only possible by giving the quality education to the children. Schools are the basis for development of a Child's life. Education will allow the children to change their own situation as well as the situation of their family and the society where they live.
- In the current scenario, urban education system has improved very much. However, in the rural areas, it still is very far behind. There are Schools operating in rural areas but quality of education, facilities, teaching methodology are far behind. So, it is important to improve the quality of education, which may be done by developing School infrastructure. In fact, having rooms and learning spaces in good conditions is decisive for students to achieve the expected academic results. Good School infrastructure makes it possible for children and youth that lives in remote areas to study, and in addition, tends to improve the attendance and interest of students and teachers in learning. We are determined to facilitate the schools with best quality of infrastructure as per their requirement.

- a) **Name of the proposal:** Mid-Day Meal Hall for Three (03) village Schools
- b) **Item no. of Schedule VII:** (ii) Promoting education
- c) **Objectives:** Rural infrastructure has the potential to provide basic amenities to people that can improve their quality of life. This include development of infrastructure even in School facilities also, as Schools are the basis for development of a child's life. The Mid-Day Meal Scheme is one of the very good schemes running in Schools by providing cooked meals to the students up to Class VIII in Government and Government Aided Schools. So, the meals are being provided to the students but many of the Schools do not have proper place/ shed area, where students can have their meal. So, the students are bound to have their meal in open which is unhygienic as well as difficult during summer/ rainy season. So, the below mentioned schools are being facilitated with the said infrastructure, where the students can take their mid-day meal.
